President. Talbot
University of Toronto

Dear Sir

I beg to offer my
series in connection with

The General Hospital which

The University of Toronto

is sending to the front.

February 23rd, 1915

Dr. G. M. Ross,

527 Jarvis Street,

Toronto.

Dear Dr. Ross:

I have this morning your offer of service in connection with the Hospital which it is probable the Board of Governors will formally offer to run for service in France at the expense of the Canadian Government. I am glad to have your definite offer. Your name has already been on the list that has been given to me of men who were willing to undertake this service. In making a choice it will be necessary for us to have regard not only to the efficiency of the Hospital we send but also to the conduct of our work for next year. I am sure, however, that we shall endeavour to meet the wishes of those who desire to go as far as we possibly can.

I am,

Yours sincerely,

President.
